Timan RC-1000

NEW

- Remotely controlled Brush Cutter and Slope Mower

The Timan RC-1000 works easily and safely on steep slopes

- including river and dyke banks, reservoirs banks, under solar panels, and other inaccessible places.

The tracks are independently suspended allowing 4 points of ground contact at all times.

A safe investment!

Protect your back, hips and ankles - and carry out the work of 5 men!

The Timan RC-1000 is operated with a professionally approved remote control

- The mower is easily lifted hydraulically into service position.
- The front of the mower can be lifted hydraulically, helping even tough and long shrubs and other materials to pass without much resistance which helps to increase the capacity.
